

Automatic Mold Flux Feeding Machine

Building 4, Hengxin Industrial Park, No. 8 Xinhua Avenue, Huangpi District, Wuhan,
Hubei, China 430000
Hubei 430000
China

Phone: 8613995588597

The system sends out signals to control the mold flux addition process and mold flux addition amount, and designs appropriate nozzles and propellers according to the fluidity of molten steel in the mold and the ductility of mold flux. After the system setting is completed, there is no manual intervention is required.

It completely replaces the whole process of manual addition of mold flux, and realizes the automation of mold flux addition.
