

Online Surface Quality Inspection System for Continuously Cast Product

Building 4, Hengxin Industrial Park, No. 8 Xinhua Avenue, Huangpi District, Wuhan,
Hubei, China 430000
Wuhan 430000
China

Phone: 8613995588597

It adopts the principle of optical imaging and uses a CCD image sensor to input the surface image of the cast products to be detected into the computer, and then the obtained image is processed by special image processing software to find out whether there is any defect in the image. It can meet the customer's requirements for the quality inspection of the surface of the cast product.
