

Round Billet Taper Measuring Instrument

Building 4, Hengxin Industrial Park, No. 8 Xinhua Avenue, Huangpi District, Wuhan,
Hubei, China 430000
Wuhan 430000
China

Phone: 8613995588597

It is a new type of mold taper measuring instrument which adopts a high-precision, high-sensitivity laser ranging sensor. The host computer shows the data of mold taper after modeling and analyzing the returned measurement data. The upper computer software intuitively reflects the data situation of the tested mold taper to the user in the form of data table, data curve and 3D model diagram, and provides a true and reliable theoretical basis for the on-site operators to maintain the mold.
